

Internal Revenue

N. B. Early, Jr., collector of internal revenue for Virginia, has announced that the number of tax returns filed up to February 29 show an increase of 70 per cent as compared with the same period a year ago, and that \$14,174,414 has been collected, as compared with \$9,683,732 a year ago.

Taxpayers are urged to avoid the rush which is anticipated around the March 15 deadline, Mr. Early said. He pointed out that reduced exemptions mean a far greater number of taxpayers must file returns this year.

STAKIN' THE BEE TREE

One-Fifth Go In Class A

Richmond, Va. (VPA).—Slightly more than one in every ten men classified for selective service is placed in Class A as immediately available for military training, according to figures released by the State Selective Service Board.

Of 66,191 registrants who have been classified as of February 15, 6,680 were placed in Class A. Of these, 4,555 were white, men and 2,125 were Negroes, the figures showed.

Other registrants have been placed in one of the three following groups: Class I, deferred for occupational reasons; Class III, deferred because of dependents, and Class IV, deferred for physical disability or other cause.

NEARLY TWO TONS OF PORK IN ONE LITTER

The popular trend toward greater efficiency in getting "things" done has apparently spread to the swine kingdom also. Shining example of this increased pork-producing efficiency was demonstrated when one litter of 17 porkers won the 1940 Minnesota State Ton Litter Contest with an astounding total weight of 3,878 pounds—almost 2 tons... in 180 days.

Proud owner of this nearly 2-ton litter was 18-year-old Earle Boyum of Rogers Falls, Minn. The litter was from purebred Duroc parents and the record made was one of the highest ever attained by any breed. It was 901 pounds heavier than the next ranking litter in the Minnesota Contest and the average weight per pig was 228.12 pounds.

According to Earle, the main feed this sensational Duroc litter received were: hulled oats, shelled corn, barley, molasses, kankake and milk. The cost per 100 pounds of gain was only \$3.15 and even though the pigs were sold on the low market last September, they made a net profit of \$86.35.
